

▶ SPECIALTY LITE

Many non-specialty brands struggle to achieve success in the retail channel due to factors like poor formulary coverage, a high instance of prior authorization required, or high out-of-pocket patient costs. These brands benefit from many specialty pharmacy processes, yet their lower price does not support the cost of traditional specialty models. They need a specialty solution that's more affordable.

KnippeRx specialty pharmacy, offers high-touch Specialty "Lite" services that overcome these challenges and dramatically increase market share while reducing costs.

The Benefits of KnippeRx:

Through state-of-the-art technology, KnippeRx has automated specialty pharmacy solutions, enabling lower WAC brands to benefit from traditional specialty pharmacy services.

- ▶ Highly Personalized Patient Service
- ▶ Integrated BV, PA, and Appeals Support
- ▶ Experts in Removing Barriers to Access
- ▶ Exceptional Clinical Expertise
- ▶ Flexible Program Models
- ▶ Highly Scalable Infrastructure
- ▶ Robust Data and Analytics
- ▶ Experienced, Knowledgeable and Trusted Partner
- ▶ Affordable Programs Customized to the Needs of Your Brand

Shrinking margins and coverage challenges are driving the need for more direct patient access paths, generating a growing desire to develop strategies that extend beyond traditional distribution channels and focus on greater convenience and more personalized patient services. KnippeRx provides custom pharmacy solutions that help your brand overcome these growing challenges.
