

# KNIPPER SHUT™

## Secure Handling for Unintentional Tampering

Added confidence  
in your package  
integrity.

Knipper 3PL can help your company build buyer confidence in the integrity of your products during transit. With Knipper SHUT, tamper evident seals are added to shipper cases and pallets before shipment. A label is also added to the secured containers with details about what to do if the tamper seal is broken.

The Knipper SHUT services include options for the type of package and pallet seals based on your needs, from simple tamper evident tapes, personalized seals with your logo, pallet seals and banding with plastic seals. Any combination can be combined.

When combined with serialization, your buyers can contact Knipper 3PL to verify serial numbers and child-to-parent aggregation of serial numbers to help authenticate the product. Other associated services from Knipper 3PL include Knipper Verification Router Service (VRS) to electronically verify serial numbers, Knipper PAL™ (Portal for Authentic Logistics) to view the serialization details and child-to-parent aggregation online, and Knipper TRAC™ (Transit Refrigeration Assurance Controls) for high value products where temperature integrity is important or where location loggers can track the path of your products during transit.

*Your partner in secure logistics and shipment integrity in life sciences.*

- ✓ Security tailored to your specific needs. Seal technique may vary by product and defined in your Knipper 3PL product packaging recipe.
- ✓ Documented and validated cGMP procedures ensure the consistent and repeatable application of tamper seals.
- ✓ Call-to-action label directs recipients for what to do if tamper seals are broken or show tampering.
- ✓ Especially beneficial for high value or frequently diverted or counterfeited products.
- ✓ Seals applied to the containers to be shipped and compliment your normal packaging seals and wrapping. Ensure the package was not opened in transit.
- ✓ Supports your sales orders that include less-than-full-case quantities.
- ✓ Packing slip includes statement that tamper seals were applied, and recipient should check them.

# THE KNIPPER 3PL ADVANTAGE

## *It's Built for You:*

The flexible, tailored solutions of Knipper 3PL integrate an agile, responsive business model with trusted, proven distribution services and an innovative suite of combined technology capabilities to drive performance, efficiencies and cost-controls.

## *Our Leadership & Experience:*

Dedicated solely to the Life Sciences industry for more than 35 years, Knipper is an industry leader in trade distribution, free goods distribution, dispensing and sampling.

## *Your Passionate Partner:*

We work closely with your team providing a holistic, consultative approach to address brand challenges and build advocacy, while providing value-added insights and actionable data in a timely, results-driven manner.

### EXPERT 3PL DISTRIBUTION & LOGISTICS
