

DSCSA EXCEPTION HANDLING

Ensuring Accuracy Distributing Serialized Items

*Your partner
in secure
logistics and
serialization in
life sciences.*

Dependency on the accuracy of transaction documents (TD) under Drug Supply Chain Security Act (DSCSA) is essential to maintaining an uninterrupted flow of prescription controlled drugs and biologics in the US supply chain.

Incomplete or inaccurate information can hamper the movement of otherwise good materials into inventory and to the patient.

Knipper 3PL employs a multifaceted approach of overlapping systems to screen and resolve errors in Electronic Product Code Information Services (EPCIS) DSCSA compliance files.

Contact Knipper 3PL to learn more about DSCSA compliance solutions tailored to your need and the many related services.

- ✓ Inbound EPCIS screened for over 100 error types. Materials quarantined until resolved.
- ✓ Labels and barcodes verified during a detailed inbound inspection.
- ✓ Items verified during shipment processing and confirmed for serial number count and status.
- ✓ Outbound EPCIS to buyers analyzed for compliance with standards and content accuracy.
- ✓ Established exception handling procedures based on GS1 DSCSA exception handling.
- ✓ Over 99.998% shipment accuracy and procedures for correcting DSCSA files.

THE KNIPPER 3PL ADVANTAGE

It's Built for You:

The flexible, tailored solutions of Knipper 3PL integrate an agile, responsive business model with trusted, proven distribution services and an innovative suite of combined technology capabilities to drive performance, efficiencies and cost-controls.

Our Leadership & Experience:

Dedicated solely to the Life Sciences industry for more than 35 years, Knipper is an industry leader in trade distribution, free goods distribution, dispensing and sampling.

Your Passionate Partner:

We work closely with your team providing a holistic, consultative approach to address brand challenges and build advocacy, while providing value-added insights and actionable data in a timely, results-driven manner.
